25X1 2. This factory is employing 4,000 workers and office workers. A new rolling complex has been set up for iron plates. The rolling apparatus for light metals is being steadily and rapidly replaced. Light metal is now being rolled on only one day a month. The factory as a whole is in a very bad state. During the last month there were six breakdowns in the rolling process. The replacement of rollers is very difficult, as these formerly came from the West.

25X1 1. Comment: Probably Walzwerk fuer Buntmetalle, SAG Marten.
